

Below are some reviews that were posted on VRBO and HOMEAWAY from renters who discovered us that way. As noted elsewhere, they charge us and you certain fees which make renting our place their way about 20% higher than to rent from us. We would not bother with them but the internet is Very Big and it is nearly impossible to get our web site to come up in a search. If you knew to search only one word, glenmerhouse, it would come up at the top!!! But people don't know that. Needless to say, when people come back to stay again, they have nothing to do with VRBO or HOMEAWAY and book directly with us. When you see 5/5 it means there is a graphic of stars of the VRBO page showing that 5 out of 5 were checked.

Outstanding vacation rental with beautiful views!!!!

5/5

Stayed Jul 2018

Casey L.

My family had an amazing stay at this cottage! The house was cute, clean and perfectly tucked back in the woods. The views sitting on the deck of the ocean were so relaxing as I sat and watched my family walk along the waters edge. The constant sounds of the water hitting the rocks made us never want to leave! It's in a great location yet tucked far enough away that you feel like your the only people around. The house is clean and comfortable and even allowed my dog to stay which made it a perfect pick for us. My family have already started to plan next year's trip but the only thing that will be different is that we will definitely plan for 2 weeks! 1 week at this cottage is not enough! Thanks to the owners of this property for being patient with me and super helpful as this was the first time we have rented a house this way. We will be back!!!!

Maine Vacation Rental

5/5

Stayed Aug 2015

William F.

My family totally enjoyed staying at the Glenmere House. It was clean, well maintained, and offered all the conveniences of home. While secluded, groceries and other supplies were 30 minutes away tops. We enjoyed watching the lobster boats work from the seaside porch. The owners were pleasant and easy to work with.

Best location ever

5/5

Stayed Jun 2015

Donna S., New England

My husband and I just returned from the most relaxing week in Maine we had ever had. Glenmere Ocean House isn't fancy but everything you will need is there and the views and quiet can't be beat. It is way off the beaten path but if that is what you are looking for, this is perfect.

A Great Vacation

My wife and I rented this cottage in August of 2013: we found the owners easy to deal with - straightforward, accurate, and prompt. We also found the website description to be complete and accurate. The information sent us made cottage easy to find and access.

The water supply was good, the parking convenient and private. The cottage was clean and well-kept, the linens provided were clean and altogether adequate. Many rentals don't provide linens and pillows, so this was a real convenience. The views from the deck, screened porch, and living room were every bit as good as shown on the website.

We had wonderful weather and greatly enjoyed just sitting on the deck and watching the tides, the sunsets, and the occasional lobster boat or sailboat go by. We were able to gather perfectly good mussels (check for red tide with the Maine Department of Marine Resources!) within 50 feet or so of the cottage.

The kitchen and equipment were good, the lobster pot was the nicest I've seen for 2-4 lobsters. (Soft-shells, the only way to go, were \$3.49/lb. at Mosquito Lobster Co., 5 minutes away in Port Clyde - a trip I made frequently) Our only complaint was that we could have used a couple of extra lobster picks and nut crackers - but that didn't seem to slow us down much.

Although the cottage provides quiet and privacy, the short distance to Port Clyde and Tenant's Harbor enabled shopping, dining, etc. For example, we really enjoyed the lighthouse tour on the Laura B. out of Port Clyde,

All in all, we had a lovely time, and look forward to repeating it.

Note: Sorry, but Mosquito Lobster is no more but other fine places for live lobster easy to find.
